

Oral Health Product

TRENDS

THE ORAL HEALTH PRODUCTS eBULLETIN BROUGHT TO YOU BY CDHA

CDHA's Oral Health Products eBulletin, *Trends*, is published twice a year in February and in June. Each eBulletin is then adapted for the April and August print issues of CDHA's member magazine, [Oh Canada!](#)

AD SPECS

- Six to seven ads (one ad reserved for a new or improved product from CDHA partners' circle member)
- Ads will be listed alphabetical by company name; alternating between ascending and descending order
- Ad copy must contain a minimum of 50 words to a maximum 100 words
- Ad copy to include a concise title heading
- Ad copy should contain one call to action which includes a phone # or fax # or email address
- Ad must contain one content link to either a website or PDF. This link will be included separately at the base of the ad
- Ad must include one image which can be either a product image or logo*
- Image size: 200px X 200px **
- Image type: JPG, PNG or GIF; static images only, no animated GIFS
- Image resolution: 300dpi (for use in both web and *Oh Canada!* print)
- Image colour: RGB
- Image link: same as the content link or different
- Ad submission deadline: two weeks prior to publication date

*CDHA reserves the right to refuse any ads which do not meet ad specifications or submission deadlines provided. February 2019.

*Image Content – CDHA’s preference is for the image to contain either a logo OR a product shot. If, however, the integrity of the image remains intact (i.e., clean, legible and uncluttered), a logo and a product shot can be used together in the image (see sample ad mock-up below). No words or selling propositions are to be included in the image provided; no charts or detailed diagrams. CDHA is trying to avoid images with crowded, illegible content.

Image size: larger images need to scale down to this size. While larger images are fine, they need to be **proportionally bigger. The image has to be a square; as an example, 60px X 200px **would not work**.

Below is a sample ad mock-up for reference...

**HU-FRIEDY'S EVEREDGE®
2.0 SCALERS/CURETTES**

EverEdge scalers are sharp...EverEdge 2.0 scalers are even sharper. Using an enhanced finishing process, Hu-Friedy's professional artisans are creating edges that are scientifically measured to be over 72% sharper than the next closest competitor. Less force means easier, more comfortable scaling for the clinician and client.
