

Elaine Plante

Nominator: Damian Huffer

My children's hygienist Elaine is a modern-day superhero and has gone beyond twice to help kids in potentially life-threatening situations -1) her quick thinking helped save teenage boys front two teeth after they were knocked out during a clash of heads during a soccer game. Her quick action in putting them back in help the boy to save them. 2) A few yrs. later she rushed to give a 9. Yr old boy the Heimlich maneuver. Her son's soccer team had gone for a meal and her sons friend was choking. She rushed over to his table whilst his mother was frozen with fear and dislodged the piece of meat. Not only has she been a fantastically caring and talented hygienist for the past 18 yrs. but she's the epitome of a modern-day hero to these two families and mine.
