

Lisa Chovin, RDH

Lisa Chovin graduated from SIAST (Saskatchewan Polytechnic) in 1998. For 15 years she worked in private practice, until she accepted her current position with Northern Lights Travelling Dental Clinic. Since then, she has worked exclusively with NIHB clients on reserves in both health clinics and schools in Northern Alberta. She has developed and implemented a dental hygiene program for four schools, which includes six-month dental hygiene visits, sealants, screenings, and referrals for students of all ages. She likes to encourage grades to compete against each other for “no cavity” contests, and she is currently launching Go Girl groups to promote confidence and self-esteem through the organization of activities that will benefit the girls and their communities. Lisa also travels for career fairs and health fairs, usually in her “Dentalmobile,” as the kids call it. Her Boston terrier, Stella, travels along with her. Lisa was recently married and lives in Edmonton. Outside of work she participates in local theatre, shows Arabian horses at the international level, and travels. Life is hectic, but she loves this crazy job that allows her to go home every day with the warm fuzzies!
