Dear member,

### **NACI's statement on COVID-19 vaccination in children**

The National Advisory Committee on Immunization (NACI) has released the recommendation on the use of the Pfizer-BioNTech COVID-19 vaccine in children 5-11 years of age. We invite you to read the [full statement](#) which includes a summary of evidence, clinical trial data, pediatric formulations, and ethical considerations or the [summary statement](#).

### **Webinar on the ethics of mandatory vaccinations**

The Canadian Bioethics Society recently hosted a webinar titled [Mandatory Vaccinations: An Ethics Perspective](#). It provides an interesting discussion on the difference between rights and liberties, the ethics of mandatory vaccination and options, and how communication can bridge the divide occurring in Canadian society on the topic of vaccines.

~

*Please be well and take care of yourselves in this difficult time.  
Everyone can do their part to slow COVID-19.*
