

Natalie Leblond-Roussel, Ontario

I have always been afraid of going to the dentist and to this day at 52 years old I struggle with anxiety when I am in a dental chair. I choke and gag among other uncomfortable things. My son also has anxiety due to an untreated cavity when he was a small boy that required extraction. When we met Natalie she instantly made us feel comfortable. She asked what was uncomfortable and walked us through the different options available for cleaning. At our appointments she took the time to make sure we were okay and fully understood all the procedures that she was doing. She always told me how long something would take and asked if I needed a break. She taught me how to properly floss and take care of my gums. As for my son, he had Natalie do a teeth whitening along with his cleaning just before his graduation. My son never smiles in pictures; if I could show you a picture of him at his graduation you would see a young man proud of his smile and showing it off!! Thank you Natalie for being so amazing, not only kind and thoughtful but extremely thorough with our exams, telling us about our mouth health, helping our overall health and making sure that we still make a routine visit to the dentist to ensure our teeth and gums are in top shape!! Natalie is my Dental Hygiene Superhero and I thank her for all she does in the community to support oral health and to make our smiles a little brighter!

Natalie has been a RDH for over 25 years. She has always gone above and beyond for her clients, community and her team. She has now owned a DH practice for nearly 10 years; her caring and compassion as well as excellent and customized dental hygiene care has made her very successful personally and professionally. Being a retired RDH myself, can't think of anyone more deserving of this award.

Natalie Leblond-Roussel is a superhero in my comic book! 😊 She shows compassion, kindness and makes me feel that I'm in great hands. The environment at Northern smiles is very welcoming. She makes my visit great as we chat and laugh. She always takes her time with me and explains everything perfectly.

Natalie has been a dental hygienist to our family for 20 years. The care at her office is exceptional and the atmosphere as you enter the office gives you a sense of comfort.
