

## Summer Lewis, Toronto, Ontario

Summer is my daughter's hygienist, and she has gone above and beyond to make sure my daughter understands the link between her type 1 diabetes and her oral health. My daughter really likes Summer and actually listens to her. Her teeth and gums have never been better; I owe that to Summer and her hard work in educating my daughter and always providing top quality care.

I nominate Summer because of her enthusiasm, focus, and drive to work with the dental community at large by developing a niche company for mobile sharpening of instruments, enhancing the lives of her colleagues and ultimately the overall capacity to practise dental hygiene. Her success story is motivating, and her growth has provided the opportunity for others to join her team and fulfill her dream at the same time!

This sweet lady is awesome! I am the biggest scaredy-cat in the world and I also have jaw problems so cannot keep my mouth open too long. Summer is always patient and kind, taking her time while cleaning my teeth (longer than any one) and still smiling and reassuring me when I need a break. I am not a good patient as I am so very nervous. She deserves the superhero award just for putting up with nervous people like me. She goes above and beyond to make me want to go back. Summer is the BEST!

Summer is the most awesome, giving person. She is a supportive and generous human being! Always giving her time to those in need! She is the greatest, and every time I visit her, she makes me feel comfortable. I love getting my teeth done by her and enjoy her energy. She truly shows how much she loves her job and her clients.

Summer is an extremely caring and hardworking mother of twin boys. She goes above and beyond for the practice and her clients. Summer is an absolute joy to know!

Summer was so great with my daughter who is very afraid of dentists or anything to do with dental offices.
