

## Majede Motieian Najar, Port Coquitlam, BC

She does a very good job

Really cares about informing people. Makes an effort to teach what she can. She takes great pride in her career. She really loves what she does and uses time outside of her work to talk about what she knows!

She makes me feel at ease and is so gentle. Goes above and beyond to make you feel comfortable.

Majede is very knowledgeable in her field and takes her time educating patients of their teeth and the importance in keeping care of it. She truly deserves this prize as she exceeds her job capacity in providing the knowledge for her patients to have healthy, beautiful teeth.

After years of discomfort, anxiety and occasional gum tearings during my routine dental cleanings, I have found a dental hygienist who is truly a master of her craft. Majede's approach to check ups and cleanings are first and foremost kind and compassionate. She comforts and eases the patient into the process, narrating every step and acknowledging all concerns. She does not judge the habits of her patients nor does she belittle alternative choices in dental hygiene, but merely advises ever so thoughtfully in her patient's best interest. I was recently pleased to discover how her passions for dental care extend to the community at large. She is continuously educating herself on impoverished communities most vulnerable to dental decay and other oral ailments; while actively contributing to remedying those societal issues. I find myself comforted by this level of devotion, that the gentleness to which she uses her dental tools during my appointment carries into the communal care we need in this world. I am forever grateful to Majede for serving as an example of industry professionalism and much needed compassion.

She was very careful and attentive when doing my cleaning, and she treated me more as a friend rather than a patient. Awesome experience :)

After my first hygiene appointment with Majede, I was made aware of so many things I was not told previously regarding my dental health. Thanks to her I now know how to spot the sensitive areas of my teeth and weakened enamel - I never knew this before. It was truly a learning experience and she was so fun to talk to. She deserves to win :)

Majede is honestly the best dental hygienist i have ever had, she's so sweet and welcoming yet super professional and informative. i have never felt more comfortable asking any questions i have about my oral health than i do with her because she makes me feel super comfortable and safe. she cleaned my teeth with such detail and care that i have never felt them cleaner than i do after she cleans them. I'm so excited for every visit with her and honestly motivated to brush and floss even better so she can be impressed. I'm so happy she's my dental hygienist and i couldn't think of anyone else who would be a better superhero.

Majede is by far one of the best dental hygienist I have had the pleasure to meet. Majede is not only very professional in what she does but she is also very personal. Majede shows through her work her diligence and patience. She also takes time to get to know her patients, often remembering things that denote her personal interest in one's well being. She has a keen eye for perfection. On a practical level, she has the smoothest hands when she is tackling the sensitive areas and has the awareness to include her patients through the process, by checking in with them through out the procedure, providing explanations at every move as to relax the patient if the unknown or unexpected. And overall, she has a radiant and welcoming personality. This is why I believe she is the best Dental Hygienist!!
