

Melissa Sedore, Keswick, Ontario

Melissa Sedore (RDH) opened her practise last year and I joined the practise. She is able to come to my home and provide oral hygiene care, which is wonderful, because I am physically disabled and it's difficult for me to travel. From the first time she provided a cleaning, I knew she was amazing at what she does. Her ability to provide her services on location has had a major positive impact on my life and health. Dental Hygiene On Demand works WITH my needs and allows me to maintain my oral health. Melissa is a superhero because in addition to her services, she uses her DHOD platform to serve the community and our planet in positive ways too; she has started local and national campaigns to help the environment, and she initiated the "Random Acts of Kindness" campaign in 2020 to spread a message of positivity to all who are a part of her practice. Melissa is a wonderful steward of her work - she is really good at what she does AND she gives back wherever she can. A true superhero!!

Melissa consistently goes above and beyond to help her patients feel comfortable, at ease and calm. She is always working with me to make sure that I'm not anxious or in pain, and educates me every step of the way. Furthermore, she keeps rolling out so many community initiatives, such as Pitch-In Canada event, environmentally friendly initiatives in her office (and educating her patients online!), as well as providing a "Random act of kindness" and many charitable efforts. She is always quick to help out and quick to offer kindness. She is 100% a Superhero, especially in these times!!!
