

24/7
Support

You can't do it all alone. So when you need help, we've got your back.

Clover Virtual
Terminal

On the Counter. In the Aisle. **At the Table. Anywhere.**

Clover Flex is ready – whether you need to take cash and credit payments (including Apple Pay®) at the counter, busting the line, at the table, or just about anywhere else.

Built to Travel

Wi-Fi and LTE-ready, Clover Flex is prepared to work on the road. It fits in the palm of your hand – making it perfect for line busting.

Ready, Set, Grow

Clover Flex grows with you. From monitoring sales and profit trends to controlling employee permissions and managing employee shifts, you can run a full POS from the same compact device that takes your payments.

Real-time Reporting

Review your complete sales history, and manage employees with Clover Dashboard – whenever, wherever. Pull a report in real-time by terminal or employee ID.

Custom Configurations

Add your logo, website or even a custom message to your terminal receipt.

Keep Your Regulars Coming Back

Build a powerful customer database with every transaction and use it to stay connected to your customers, advertise to them, and incent them to come back.

Including a **Virtual Terminal.**

With the Clover Virtual Terminal you can take payments anywhere without your Clover Flex terminal anytime – all you need is your smartphone, tablet, or computer and an internet connection. No extra equipment or software required.

Fast, Easy Payments

Simply enter order and payment information from your web browser and accept all major credit cards. It's that easy.

No Additional Cost

Not only is it easy to use, but also there's no additional monthly fee to use Virtual Terminal. Transactions processed through Virtual Terminal are priced at the keyed-in rate.

End-to-End Security

Each Virtual Terminal transaction is encrypted and tokenized to ensure that each payment is secure, for your business and your customers.

Log into your Clover Web Dashboard to start using Virtual Terminal today.
