Established in 1966, the *Canadian Journal of Dental Hygiene* (CJDH) is CDHA's MEDLINE-indexed research publication. Published three times a year in February, June, and October, the journal encourages oral health research that advances the scientific basis of dental hygiene practice and addresses topics of relevance to education, policy, practice, and theory. CJDH publishes original research, literature reviews, short communications, and letters of scientific and professional interest to dental hygienists and other oral health professionals.

CJDH is the only peer-reviewed English research journal published in Canada exclusively for dental hygienists. Eighty-two percent of CDHA members have ranked it as their preferred choice over any other oral health journal in North America.
